## Aims & Principles

**1** We Believe that the media should be open, democratic and free.

**2** The IMMSG exists to support independent media projects. Independent media Projects are considered to be those projects which fulfil as many of the following criteria as possible:

- » Operate according to the principles of open-publishing.
- » Aim to produce and/or distribute information for the purpose of educating the public.
- » Are organised in a non-hierarchical manner.
- » Are run on a not-for-profit basis
- » Are independent of any control from commercial, political or other outside organisations.

**3** This support will consist of the following voluntary activities:

- » Raising and distributing funds to finance such projects.
- » Providing education, training and technical assistance to groups wishing to establish and use such projects.
- » Promoting and defending such projects before the public
- » Educating the public about the benefits of such projects.
- » Whatever other benevolent purposes that the members of the organisation, in line with the overall goals of the organisation, see fit to pursue.

**4** Priority will be given to projects particularly relating to Ireland.
